

The World's Smartest
360° Dashcam.

VEZO 360

FAST FACTS

360° dual-lens camera plus protection by AI. The future standard of safety.

Vezo is a dual-lens 4K dashcam that records all around your car in 360°. Sporting AI machine learning that can detect and alert drivers who are falling asleep, and combined with 4G, WIFI, Bluetooth, cloud storage and a live-streaming app, Vezo is truly the world's smartest dashcam.

Stay Alert Behind the Wheel

Better than a cup of coffee, Vezo uses AI to keep an eye on the driver for the tell-tale signs of drowsiness. At the faintest hint of Mr. Sandman's arrival, Vezo alerts the driver to wake up! With Vezo, you'll never again worry about nodding off behind the wheel.

ONLY DASHCAM WITH SLEEP DETECTION!

Keeps You Safe On the Road

Vezo's dual-lens camera records crystal-clear **4K HD video in 360 degrees**. Perfectly capture the entire view: out your windshield, at your blind spots and everything that's happening behind you. Auto-accident detection records collisions and automatically saves footage to the cloud.

Redefine the 'Road Movie' Genre

The 360° dual-lens camera gives a new 4K perspective to the road movie. Always recording video (optionally mic'd), Vezo makes it easy to share those perfect, unexpected moments with friends and followers. And Vezo's magnetic mount lets you take it out of the car and straight into the action. You can even attach it to a drone!

Put Your Trust in the Perfect Guard Dog

Unattended, parked cars account for 20% of all accidents. Don't leave the security of your car up to fate! Vezo monitors your parked car 24/7 and sends you notifications when it detects unusual activity. And a blinking LED light acts as a strong deterrent to any potential thieves.

Stay Secure and Connected Around the Clock

With 4G and WIFI support, Vezo's always connected. You can log in to the Vezo app anytime to see a streaming live-view of your car. And you'll never get lost in the parking lot again—just use Vezo's GPS signal to see in the app exactly where you left your car.

VEZO 360 - SPECIFICATIONS

Lens

Tripod

FREQUENTLY ASKED QUESTIONS

What is the price of the Vezo 360?

We will be announcing prices soon. You can sign up for our newsletter to be among the first people informed of our limited Super Early Bird sale prices.

Will you have any promotional giveaways?

Yes, we will have a referral program for a chance to win a free Vezo. Stay tuned!

Can the Vezo 360 withstand the hot temperatures of tropical countries?

Yes, Vezo has airflow cooling vents in the body of the dashcam.

Does the Vezo 360 come with a camera for the back of the car?

Vezo comes with single-channel dual-lens 360° dashcam. But it's possible to connect two Vezo 360 dashcams or connect multiple devices with the Vezo Mobile App.

Does the Vezo 360 have a battery, or do I have to keep it connected to the charger?

Vezo has a rechargeable internal battery that will power Vezo between 1.5 to 2 days when your car is stationary. When your car's ignition is off, Vezo enters sleep mode, and only wakes up to send you a notification when its sensors detect unusual activity. When your car's ignition is on, Vezo will recharge its battery via the charging cable. We also sell an optional power extender for when you want to park your car for longer periods of time.

Do you have a hardwire kit?

Yes, you can connect Vezo 360 with Direct-Wire Cable. Vezo is activated with a 5v power supply. You can also purchase an external hardwire kit accessory.

What kind of recording features are available?

The Vezo 360 supports app-controlled loop and continuous recording. If you are using Vezo as a dashcam inside your car, it records on loop and if use Vezo as an outdoor action cam, you can use continuous recording.

What kind of safety features are available?

360° Imaging: A camera is only as good as the view and data it provides. Video serves as evidence only when it tells the full story. If you find yourself in an accident or become the victim of vandalism, hit and run, or theft, you cannot afford to have parts of the story missing; you need the complete 360-degree picture and event intelligence that Vezo 360 provides.

Parking Mode: Also unique to the Vezo 360 is its suite of advanced low-power sensors, allowing it to stay alert to events even if the car is turned off for weeks. When a suspicious event happens, the Vezo instantly turns on, records and alerts you with a notification. When your car is unattended, Vezo 360 sleeps with one eye open to protect your vehicle without draining its battery.

What size of SD card does Vezo work with?

Vezo 360 supports Micro SD cards up to 256 GB.

How does Vezo 360 compare against top competitors?

The Vezo 360 is the first and only consumer automotive camera to use dual-lens 360-degree imaging technology for a seamless crystal clear view both in and around your vehicle. Vezo also has the most

sophisticated machine learning driver drowsiness monitoring and event detection system.

Also unique to the Vezo360 is its suite of advanced low-power sensors, allowing it to stay alert to events even if the car is turned off for weeks.

What kind of connection options are there?

Vezo 360 has Wi-fi Direct and 4G cellular connectivity. Vezo 360 is tailor-made to utilize the minimum cellular data possible. 4G is only used in two scenarios:

1. In the event of a collision, only accident footage is automatically saved to the cloud.
2. In parking mode, situations like hit-run and other unusual activity will send a live notification with footage to your phone.

What format is the video stored in?

Vezo 360 records crystal clear video at 4K resolution. With the Vezo mobile app, you can get access the footage in three formats:

- 1. Single mode:** View the video taken by either Vezo's front or back camera.
- 2. Double Mode:** View video taken by both cameras.
- 3. 360 Mode:** Panoramic 360°.
